Objective

Passionate artist, programmer, and music producer seeking a role to leverage creativity and technical skills in an innovative team.

Education

School name: MBAW Doha – High School degree

Completion date: 2018

School name: PUA Alexandria – Bachelor of computer engineering degree

Completion date: Ongoing

List of accomplishments

- **Hyper-realistic art:** Achieved realism in painting, and hyperrealism in AI painting, capturing dramatic details and emotions in art.
- **3D Art:** Develop proficiency in 3D modeling software, including design and rendering, to create large-scale 3D models.
- **AI Voice Cloning (RVC):** Acquired skills in AI voice changing techniques, allowing for voice manipulation and enhancement.
- **Stable Diffusion:** Mastered stable diffusion methods in AI art, facilitating the creation of stable and high-quality AI-generated content.
- **Music Production:** Managed to learn how to produce music to expand my role in music production.
- **Software Skills:** Achieved proficiency in various software tools such as Adobe Photoshop, After Effects, Audition, ZBrush, Cinema 4D, FL Studio, Autodesk Maya, and C programming.
- **Self-Learning:** Proven the ability to become a self-learner, independently acquiring new skills and knowledge.
- **Freelance career:** Successfully worked as a freelance artist delivering high-quality paintings and drawings to clients

Experience

- **Graphic Designing**
Building on my inventive competencies, I ventured into 3D graphic design. I have discovered to sculpt and render 3D snapshots, increasing my creative portfolio and exploring new dimensions of artistry.
- **Music Producing**
In pursuit of diversifying my innovative abilities, I explored music manufacturing. I continue to increase my abilities in this field whilst constructing a portfolio of track compositions.
- **AI Art**
I expanded my innovative horizons into AI artwork, acquiring expertise and abilities in AI Voice Cloning (RVC) and gaining knowledge of stable diffusion strategies and techniques. These capabilities have enabled me to discover AI-generated artwork and voice manipulation, providing new avenues for creative expression.

Work Experience

- **Graphic Designer – Freelancer – 2019 - Present**
I initiated my adventure into portrait drawing at the age of nine, gradually growing my capabilities and accomplishing hyper-realism in my artwork. During this era, I supplied freelance artwork offerings to numerous customers, developing personalized picture designs.
- **Graphic Designer – Centergrowth – 2021 - Present**
As a remote graphic designer at Centergrowth Company, I used to design marketing materials, collaborated with a global team, as well as enhancing my remote work skills, communication skills, creativity, and critical thinking.

Technical Skills

- Adobe Photoshop
- Adobe After Effects
- Adobe Audition
- ZBrush
- Stable Diffusion
- RVC
- Cinema 4D
- FL Studio
- Autodesk Maya
- C Programming

Soft Skills

- Creativity
- Communication
- Teamwork
- Problem-Solving
- Self-Learning
- Critical Thinking
- Time Management
